

COMMANDER-IN-CHIEF OF THE ARMED FORCES OF UKRAINE  
General Valerii ZALUZHNIY

№  
August, 05. 2022

To: all supporters of Ukraine

Dear Supporter of Ukraine!

The Armed Forces of Ukraine are grateful for your commitment to Ukraine's sovereignty and its defense against the ongoing aggression by the Russian Federation.

Since March, Ukraine has received substantial foreign aid in the area of satellite communication equipment. Among this equipment, SpaceX's Starlink terminals have played a pivotal role in establishing reliable and secure military communication at the strategic and operational levels, and provided an asymmetric advantage over the enemy.

Based on the performance of the Starlink network to date, we believe that it has the potential to become the primary infrastructure layer underlying the majority of communication along the chain of command. Accordingly, we would like to expand the deployment of Starlink terminals to the tactical level, the next phase of which would require [REDACTED] additional units.

We are kindly requesting your assistance in procuring this batch of terminals from SpaceX for the needs of Ukraine's Armed Forces, and are grateful for your consideration.

Respectfully,

Valerii Zaluzhnyi  
Commander-in-Chief of the Armed Forces of Ukraine  
General
